Travel to a world of beloved
and unique flavors with our products!

1922

It all started with the Passion and art of Miran Kourounlian the founder and initiator of our workshop. Originally from Kayseri in Cappadocia, he wandered around and from there to Chios island Piraeus and Old Kokkinia, Greece. **Grandfather Miran** tackled the art he knew more than anything else: making pastourma and soujouk with all his mastery and all his secrets.

TODAY

Today, continuing the tradition, we manufacture our specialized products in limited quantities. Camel pastourma, mutton pastourma, buffalo pastourma - an exclusive product of the MIRAN laboratory with a patent from the Industrial Property Organization -, veal pastourma from leg, sirloin, tail fillet and steak. Our famous soujouk. The soujouk stick and the hot soujouk. We succeeded in making "odorless" pastourma without removing the cemen.
